Learning Enablers

Paired Learning	Simple Routines	Embedded Teacher Training	A New Scaffolding	Stretchability
All children are active in learning, none left out. Transforms 1:40 ratio to 1:1 interaction.	Children understand and can follow the learning process themselves, with minimal teacher input required.	Visual modules, simple prompts and QRs linking to classroom videos, instead of complex external training.	Picture-sound-word in literacy. Kinaesthetic-Concrete-Abstract in numeracy.	The same activity can be done at multiple levels by children working in pairs, creating full engagement.
